## MAN FOUND DEAD IN DESERTED HOUSE

Landlady Disappears and Paris Police Are Puzzled Over Mystery.

Paris, France, Jan. 5.—When the doors of a small flat in one of the populous quarters of Paris were opened by the police, they discovered that it was occupied by a mysterious corpse. The dead man's body, it seems, must have been lying there for several months, and how it came to be there is the question. The man was a Russian, and a Russian woman, who disappeared early in September last. She took some boxes with her, and told the concierge that she was going to travel. The furniture (she remained) consisted of only three folding beds and some chairs.

The proprietress of the house learned after some weeks that the woman was staying with some of her companions in another part of the city, and went to see her. She was told not to be uneasy about the flat, which the Russian woman said she would continue to occupy and pay for, as her furniture was still there.

As time passed, however, and the Russian woman disappeared altogether, the proprietress of the house called in a locksmith, who opened the doors, and who, after examining the rooms, was astonished to find the corpse of a man in one of the beds. The police were at once informed, and papers found in the clothes of the deceased seemed to indicate that he was a Bulgarian, who may have been a lodger taken in by the Russian woman.

## PLAN TO CONSCRIPT SERVANT GIRLS

German Women Discuss a Law Making Service for Girls Compulsory.

Berlin, Germany, Jan. 5.—It is proposed in Germany to introduce a form of conscription to compel all girls to undergo a period of training as domestic servants.

The idea was put forward at the conference of women's associations which has just taken place here under the auspices of the German Evangelical Women's league. The conference discussed the difficulties which arise between mistress and servant, and various delegates argued that friction was often due as much to the ignorance of the mistress as to the incapacity of the servant.

A proposal was advanced in all seriousness by a number of influential delegates that just as all German men are compelled to serve in the army, so in the same way should all German girls be compelled by law to serve for a certain minimum period in the kitchen and in the household.

## DIVER IS HURT; WOMEN FAINT

Equilibrist Misjudges Distance and Is Seriously Injured.

Lisbon, Portugal, Jan. 5.—A terrible accident occurred at the coliseum here when an Antioch, an equilibrist, was fatally injured while diving from the roof.

M. Antioch, who was making his first appearance in Lisbon, intended to jump from a trapeze suspended from the roof of the amphitheater, a height of more than 100 feet, and land on his chest on a polished board placed at a steep angle some distance below, and then slide to the stage.

He miscalculated the distance, and fell sideways against the plank, striking it with such violence that he turned a complete summersault and was hurled into the middle of the amphitheater.

When picked up he was unconscious and covered with blood. Several women fainted at the spectacle.

## DOG PLAYS PART IN AUSTRIAN ARMY SCANDAL

Vienna, Austria, Jan. 5.—A rough-haired terrier named Troll seems destined to play an important part in the trial of its master, Lieut. Hoffner, who is accused of murdering a brother officer by poisoning him with pills, and of attempting to kill others in the same way.

When the prisoner came from Linz to Vienna with the intention, as the prosecution alleges, of posting the fatal powder, he declares that he brought his dog with him. Tired of confinement in the railway carriage the dog, he says, disported itself rather wildly outside the Western railway station. In the course of its gambols it ran between the feet of two women, nearly upsetting them.

These women are now being to come forward and confirm the lieutenant's story. Their evidence, it is thought, should prove useful for his defence, for it is considered unlikely that a man setting out on a criminal mission would burden himself with a dog, which in Austria means trouble and delay at every turn.

## Health Cranks and Food Faddists

Have Evolved Some Strange and Wonderful Theories Concerning Stomach Treatment.

A Trial Package of Stuart's Dyspepsia Tablets Sent Free.

Within the last 20 years there has sprung into existence theories by the score relative to the kinds of food that human beings should eat, and should avoid. With the tremendous increase in nervous and stomach diseases which are caused by the strenuous life of this neurotic, neurasthenic age in which we live, we are constantly having our attention called to some food faddist's "new idea" on the subject of alimentation.

Most prominent among these theories is the vegetarianism which insists that meat was never intended for the human stomach, despite the fact that his ancestors for 6000 years or more, used it as their principal article of diet; and the old patriarchs of Biblical History who lived to prodigious old ages, were meat eaters. All of the great nations of history have been users of meat, and all of the most powerful and advanced countries of today employ it extensively in their dietaries, and their superior development and high degree of civilization are in strong and striking contrast to the decadent and degenerate nations of Asia and the tropics, whose inhabitants are vegetarians.

Another fallacy which has lately become a fad, is the so-called "raw-protein" diet. Now, the foods which are rich in proteins are the ones which build up nerve, brain, muscle and blood, so that any great reduction in the amount of protein used simply means semi-starvation for the most important centers of the system—the ones on which we depend the most to enable us to successfully fight the battles of life. Those nations whose people use foods containing but little protein are never large in frame or well-built. The Japanese, who have always been small of stature, have, since adopting a more liberal protein diet, shown a remarkable increase in size, vigor and general development; and it is only since Japan became a meat-eating nation that it has developed into a world power.

Still another theory lately advanced is that sugar, pepper and salt are gastric irritants and irritate the mucous membrane of the stomach, although it is known that sugar, pepper and salt are caloric value, while pepper and salt assist digestion rather than interfere with it, as is claimed.

The no-breakfast plan, the two-meal per day, and even the one meal daily has been advocated, while some advise a two or three weeks' fast, during which all food is withheld from the stomach "to give it a rest," completely ignoring the fact that the system's tissues are being constantly torn down and cast off, and new material to rebuild them must be supplied from the food.

It is utter nonsense to concern one's self about all these absurd and illogical theories, as life is entirely too short, and there are other things requiring our attention. Eat what you want when you want it, and as much as the system needs to replenish its waste, and then take one or two of Stuart's Dyspepsia Tablets, and forget all about food fads and stomach troubles. They digest all kinds of food so thoroughly you won't know you have a stomach. They are powerful digestors of every kind of food through harmless to the system, and may be taken at any time and in any quantity.

Get a box from your druggist for 50c, and send us your name and address for free sample. Address, F. A. Stuart Co., 150 Stuart Bldg., Marshall, Michigan.

## EMPEROR MAY OPEN MONTE CARLO MUSEUM

Monte Carlo, Monaco, Jan. 5.—The magnificent Oceanographical museum of prince Albert of Monaco, is to be opened on March 27 by, it is believed, the German emperor. His majesty was present when the foundation-stone of the monumental building was laid ten years ago.

The museum is destined to house the prince's oceanographical collection, and has just been completed. It stands on a superb site on the southern extremity of the rock of Monaco.

## TEACHERS NAMED FOR THE SCHOOLS

Three Are Ordered Dropped From the Rolls—Some Resignations.

Deciding at 4 o'clock yesterday afternoon to hold a meeting, the school board got together last night. All members were present with the exception of W. L. Tooley and W. I. Gaines.

The purpose of the meeting was to receive the recommendations of the internal committee regarding the appointment of teachers to fill positions recently vacated by resignations.

The following report was accepted without comment and the board decided not to hold a meeting Monday night, nor will they get together again.

**DR. N. G. CHIEF HOK,**  
Chinese Physician, Cures  
Lung trouble, asthma, catarrh in all its forms, dyspepsia, nervousness, heart disease, kidney trouble, rheumatism and blood poisoning. Cures cured. No mercury or minerals used. Nervous debility cured as by magic. Allments peculiar to women cured without a knife.  
105 N. Campbell.  
Bell phone 1913.

until the external committee is ready to make a report which will not be for some time.

We, your internal committee, beg leave to report as follows:

We recommend the election of Miss Hudspeeth, an A. B. graduate of the university of Nashville, and a teacher of experience, as a regular teacher in the public schools, at a salary of \$75.

We recommend the election of Miss Clara Mundy, an A. B. graduate of the university of California, and a former teacher in our schools, to a regular position, at a salary of \$75.

We recommend the election of Miss Elizabeth LeGrande, at a salary of \$37; Miss Dorothy Virgin, at \$20; Miss Annie Moss, at \$30; Miss Edna Thomas and Miss Helen Lucas, both at \$20, as substitute teachers.

We further recommend that the office of assistant principal at the Aoy school be created, and Miss Gertrude Higgins be appointed to that position at the salary she now receives.

We further recommend that Mrs. Lillie Howard, Miss Beatrice McGhee and Miss Hallie Irvin, who were elected substitute teachers on condition that they obtain competent certificates, be not further retained, inasmuch as they have failed to comply with the condition upon which they were appointed.

We further recommend that Miss

Leona Black, who has procrastinated from time to time the matter of obtaining her diploma from the Southwest Texas Normal, be given two weeks' time in which to complete her examinations, and if the examinations are not completed within that time, that she be dismissed from the service.

We have received the resignations of Miss Flora McGee and Miss Josephine Francis, both teachers in the San Jacinto school. We recommend that these resignations be accepted.

Yours respectfully,  
H. W. Welsh,  
W. L. Peabody,  
Internal Committee.

**MINER IS HELD ON MURDER CHARGE**  
Arrest Follows Killing at Paradise, Ariz.—News From Bisbee.

Bisbee, Ariz., Jan. 5.—Duncan McDonald, a miner well known in Bisbee, has been arrested and brought to the county jail accused of having killed D. W. Sinclair, also a miner, in Paradise, Arizona.

The report of the charity committee of the board of trade shows that since its organization 91 cases of families and individuals have been taken up and provided for. The report states that the committee has received \$1442.55 in donations by the leading citizens of Bisbee. Of that amount a balance of \$208.40 is still on hand.

The reports of the Bisbee schools show an increase in the number of pupils attending the public schools.

In percentage the attendance during the year 1909 shows 94 percent against 90 percent in 1908.

G. Seymour, 35 years old, died recently in South Bisbee, leaving a wife and one child.

H. Poppen, manager of the Copper Queen hotel, has been notified of his mother's death at Whiting, Ind.

A horse is reported to have died of fright during the shooting celebration. The horse belonged to the Copper Queen Mining company and experts who examined it stated that nothing was the matter with it except a condition of the heart resulting from fright.

**RESULTS SURPRISING.**  
You'll be surprised at the results you will get from a small, neat, rent or sale ad in The Herald. Will not cost more than 25c to 50c. Phone Bell 115. Auto 1115 and tell the girl.

**Why Does It Cure**  
Not because it is Sarsaparilla, but because it is a medicine of peculiar merit, composed of more than twenty different remedial agents effecting phenomenal cures of troubles of the blood, stomach, liver and bowels.

Thus Hood's Sarsaparilla cures scrofula, eczema, anemia, catarrh, nervousness, that tired feeling, dyspepsia, loss of appetite, and builds up the system.

Get it today in the usual liquid form or in chocolate tablet form called Sarsapals.

## RUSSIA SEES WAR WITH JAPANESE

Premier Urges the Building of Another Fleet—Japs Have Maps.

St. Petersburg, Russia, Jan. 5.—Much uneasiness has been caused here by reports of a projected Japanese aggression, which are supported by the discovery of native Japanese maps, plainly showing parts of Russia's Far Eastern coast as belonging to Japan, and bearing notes indicative of contemplated conquests in that direction.

A well known industrial magnate, just returned from Japan, lecturing to a large audience of ministers and members of the Duma, declared that Japan will again be at war with Russia within the next three years.

The premier, M. Stolypin, is urging the building of another fleet.

## SWISS TOWN IS SAVED FROM LANDSLIDE

Geneva, Switzerland, Jan. 5.—The advance of the northern face of the Volone mountain, which has threatened the village of Marchilly with destruction for several weeks, has been checked, and French engineers who are working night and day to save the village, now believe that the landslide can be stopped.

By constructing a tunnel the pressure of water which caused the landslide has been partially relieved, and the mountain is moving forward more slowly.
